Thane, Maharashtra - 400606, India

OBJECTIVE

Aspiring software engineer eager to leverage my skills in full-stack development, problem-solving, and innovation within a dynamic, collaborative environment. Passionate about building scalable, resilient, and impactful technology solutions that drive real-world applications. I am excited to contribute to JPMorgan Chase's global technology initiatives, collaborating with agile teams to develop cutting-edge digital solutions while gaining hands-on experience in enterprise technology, cloud computing, and machine learning. I look forward to learning from industry leaders, networking with like-minded technologists, and advancing my career as a software engineer in a high-energy, fast-paced environment.
